DEPUTY COMMISSIONER

F.DO/2016/KVS(BPL)

Dated: 16/05/2016

Dear Principals,

I have glanced through the MRAP reports of all KVs. Large number of children are shown being slow learners, against the scientific fact about the number ordinarily not exceeding 10% of the class size. I request you to note:

01. Slow learners substantially credit their success to the help of Principal and teachers, and in gratitude, they owe their achievements to them. It is, therefore, necessary that your KV conducts academic programmes designed to aide and enrich the academics of such children, who are often lesser taken care of.
02. The classroom environment, peer group help, ICT intervention, etc. be extensively utilized for their needful help.
03. The teachers assisting them get success shall be adequately honoured. So ask such teachers who inspire and create success are highly sought after in KVS.
04. You may endeavour to empower, both your teachers and students to find their strengths and supply them programme including innovative hands-on-training. Ultimately, the aim is to create self-sufficiency and a foundation for their learning and achieving.

Please spread the message among teachers and others connected, and ensure that such children are well taken care of for their learning, preparing and achieving. Also, ensure that this number goes down to the extent indicated.

Please note the society as a whole finds today KVs being classical examples for learning and success rate; they provide the best academic opportunity for everyone, slow learners included. They are the most sought after schools today being centres for everyone who wants to learn, prepare and make academic fortunes. Thus, we are in the eyes of the parents and others, the fact which Hon'ble MOS (HRD), Govt. of India, New Delhi confirmed during his meeting taken at KV Pachmarhi on 15/05/2016.

You may mail me back action taken report within three days.

Yours sincerely,

  
(ISAMPAL)
