DEPUTY COMMISSIONER

F.DO/2016/KVS(BPL)

Dated: 16/06/2016

Dear Principals (as per list),

The way you look at the world around decides how it manifests for you. Children have failed due to the circumstances of their own is the general argument put forward by all 22 of you. In vain I tried to cajole myself that you couldn't produce 100% pass result owing to the causative factors, all attributing to the children who failed. But I can not comfort myself with such explanation.

You know that the child is born to succeed. Since he doesn't know how to succeed, he comes to school. And if he fails there must be reasons for it; and reasons are obvious. You have hopefully read through my DO of even number dated 10/06/2016, through which I have suggested that school is principally responsible for both pass & fail. The sincere efforts put in the organized way fling the monster of failure from school, and crush it beneath the heel, sweeping away the surrounding which fosters idleness and dissipation.

Certain philosophies declare that the child is perfect, even in the midst of his appearance of imperfection; provided right direction is given. Imagine how such a view point of failure can change approach to life. With higher academic preparation the child can take his rightful place as a winner and discover how to use his win to create a happy and healthy life.

To experience success for children, you have to trust yourself that you can. After all you are the one who decides, what you believe. You are the one who chooses what to do with your time and circumstances. Will you focus on academics or something else, or both together? You are the king of kingdom, that is your own amazing life and it is your thought & action that mold your journey. Choose your thoughts and actions wisely and come to trust yourself so much that you are well guided in every moment and every circumstance. Then you can turn the adverse circumstances into the positive ones i.e. failure to success for the children under your care, and for yourself as well.

I, in view of the above, am convinced that you could have exerted a bit better and result looked up as it is there in respect of those 15 KVs of your Region.

To summarize, I am grieved to find that your school couldn't perform as well as others, for want of winning spirit as above and made us feel humbled toward the public expectations. **I hereby, in general, express my deep displeasure for the same, therefore.**

Please acknowledge.

Yours sincerely,

(ISAMPAL)
