ISAMPAL
DEPUTY COMMISSIONER

Dated: 20/07/2015

F.DO/2015-KVS(BPL)

Dear Principals,

I believe that the most valuable sense that we as human being possess is our mindsight – the capacity to envision our life in its most satisfying form. But mindsight is much more than just mentally seeing our life at its best. It is an attitude and a plan of action. It is a dream and the ability to make that dream come true.

The fact is few of us know what we want, much less have a plan to get it. Without such direction, our lives are less exciting, less fulfilling and less successful than they could be.

You know that success is synonymous with happiness. How you feel about yourself, your job, and the world contributes to or detracts from your success.

Successful people are those who greet each new day with enthusiasm, confidence and optimism. They feel good about themselves and about the life they have chosen to lead. They know that to have it all in life, they have to give their all to life. They love, love and love work. These individuals are adept at motivating themselves as well as others and derive pleasure from sharing the joy of their achievements. They are caring and responsive to others, treat them well and are treated well in return. Through mindsight, they know that work challenge and even sacrifice are all parts of life, and they routinely turn adversities into opportunities. Successful people conquer fear by facing it and overcome pain by experiencing it. They have the knack of creating happiness in their everyday lives that also is uplifting to those fortunate enough to be around them. Their usual smile is evidence of their inner strength and positive approach to living.

Do you consider yourself to be one of those who have attained this kind of success? Are you as happy as you want to be? Are you living your dream life or settling for what you think is all you can have? If not, I have a message for you. No one of you has to settle for less than a full rich, rewarding and successful life. You can make your dream life become a reality by applying your TKS.

The winners in today's world don't just see an opportunity – they seize it. To them a setback means to **'bounce back'**. It never means **'to quit'**. People who made success a habit view work as a stimulating challenge, not as a sentence.

You may have read these thought provoking lines **'For all sad words of tongue or pen. The saddest are these : 'it might have been!'**.

It is sad for anyone of us to look backward now and regret any more. It is enormously disillusioning to live in a world where ordinary people elsewhere are becoming better successful and we are not. It hurts to see a person with less ability and education than you have, win better success. It is disappointing to have turned down an opportunity and then see others seize the same and make huge success from it. It is painful not to be able to give your every child the successful start what they need in life. And it cripples your spirit to feel embarrassed when others live the better successful life.

I believe life can be a series of victories, not disappointments. No one is condemned to endure the agony of **'it might have been'**. Come on, show up to live joyfully and abundantly and practice the philosophy of **'for all happy words we speak or write. The happiest are these: 'I won the fight!'**

Finally, I advise to start with the real target of 100% quality pass result for 2015 since success starts with knowing what you want – then single mindedly chasing it as discussed during the principals' conference here on July 13-14, 2015.

Follow the secret of success formula:

01. How to build 100% pass result (MRAP, Error Analysis and investing 100% of your energy).
02. Motivate teachers and staff to do what you want. Become their HRE (Human Relation Engineer). Tell them how their output shall help their prospects.
03. Watch people with 100% quality result produced. Learn from them. They are the people just like you and me who faced with similar mountain. They kept on striving until they climbed over, found tunnel underneath or simply stayed and turned their mountain into a goldmine full of 100% pass result. You would then perform even better and become real pacesetters.

I request you to share the DO with your teachers (one copy to each).

I request to acknowledge it within three days.

With regards,

Yours sincerely,

(Isampal)
